

What on earth are we thinking?

Sustainable development
and global learning

**Day conference:
Thursday 18th June 2009
Millennium Point, Birmingham**

How do we enable learners to engage critically and creatively with a big idea like sustainable development?

This event shares what West Midland primary and secondary schools have been doing in response to this challenge, and offers opportunities to develop your own ideas and practice.

Workshops to include:

- ◆ Planning for whole school change
- ◆ Pupil voice and climate change
- ◆ Thinking about consumerism and quality of life
- ◆ Using art to think through issues
- ◆ Global learning through school gardens
- ◆ Exploring food and farming issues in a Special School
- ◆ The challenge of sustainability, citizenship and climate change for ITE
- ◆ Using school partnerships to explore issues
- ◆ Creative approaches to Science and Technology
- ◆ Forest schools and global learning
